# RESISTANCE BRAZING SYSTEM

American Beauty offers the most advanced and complete line of resistance soldering systems available anywhere in the world. Here are just a few of the advantages that you will find with resistance soldering systems: • <u>Smash Operational Bottlenecks</u> -Concentrated heat reduces solder time many times over.

• Improve Solder Joint Quality - Poor solder joints are often the result of insufficient heat throughout the joint,creating weak spots.

• <u>Eliminate Thermal Damage</u> -Traditional soldering methods introduce too much heat into surrounding areas damaging critical components or desoldering of previously soldered joints.

• <u>Reduce Liability</u> - Light-weight handpieces cool within seconds greatly reducing likelihood of repetitive strain injury and virtually eliminating the burn risk for the user.

• <u>Solder in Tight Spots</u> - Versatile systems allow easy access to restricted areas.

• <u>Cut down on Energy Consumption</u> -Instant heat means you're not paying to heat a soldering station all day long.

• <u>Save on Maintenance and</u> <u>Consumables</u> - Electrodes last twice as long as soldering tips and don't require constant rewetting.

Stop trying to perform your difficult soldering operation the same old way with the same old tools. Try an American Beauty Resistance Soldering System today.

#### ACCESSORIES

The following products can be used as Accessories for Model 10557 featured on this page:

| Model    | Product Name                            |
|----------|---|
| 105HCPTM | High Capacity Precision<br>Timer Module |

#### FEATURES AND BENEFITS

Three tap selectable power outputs of 500, 1300 and 1800W. (2.3 to 7.2VAC) is rated to sweat-solder thin wall copper tubing up to approximately 1.5" dia. and braze similar materials up to approximately 3/8" dia.

**Heavy-Duty Plier Style Handpiece** offers a good compromise between handpiece weight and longevity.

**Carbon block electrodes** can be easily notched/shaped, allowing the user to customize the handpiece to their specific application.

**Footswitch** permits hands-free activation of power, vastly improving control of your applications and virtually eliminating the sparking that is common with other brands of resistance based systems.

#### **APPLICATIONS**

Users of this product have stated that they use it for several jobs which include but are not limited to: 1. Brazing repairs for Refrigeration Sealed Systems

- 2. Connecting contact rings
- 3. Brazing electric windings

# **TECHNICAL SPECIFICATIONS**

| Connection Type                      | Ring Terminals                 |
|--------------------------------------|--------------------------------|
| Wattage                              | 1800 watts                     |
| Opening between<br>Electrodes        | 3 in / 7.62 cm                 |
| Electrode<br>Size/Diameter           | .50 in / 1.27 cm               |
| Available in a 220-240<br>VAC?       | Yes, available upon<br>request |
| Product Width                        | 12.50 in / 31.75 cm            |
| Product Height                       | 14.00 in / 35.56 cm            |
| Package Weight                       | 39.25 lbs / 17.80<br>kg        |
| Country of Origin                    | US                             |
| Harmonization Code:                  | 8515.11.0000                   |
| RoHS Compliant                       | Yes                            |
| IEC 60335-1, Edition<br>5.1, 2013-12 | Yes                            |
| WEEE Compliant                       | Yes                            |
| CE Certified                         | Yes                            |
| Warranty Policy                      | Details                        |
| User Manual                          | User Manual                    |
| Product Lgth                         | 12.75                          |

### **REPLACEMENT PARTS**

The following products can be used as replacements for Model 10557 featured on this page:

| Model   | Product Name   |
|---------|--|
| 10519HW | High-Wattage Footswitch  |
| 10565   | Concave Carbon Block<br>Electrodes for Resistance<br>Soldering |
| 10587   | Heavy-Duty Plier Style<br>Handpiece                            |
| 105C2   | 1,800 Watt High Capacity<br>Resistance Soldering Power<br>Unit |

# **END-OF-LIFE INSTRUCTIONS**

In an effort to reduce waste and comply with WEEE directive, please do not dispose of product. All American Beauty Tools are serviceable and can be repaired and/or replaced. Please contact manufacturer to make arrangements.

## **SIMILAR PRODUCTS**

The following products are related (similar model but different specifications, etc.) to Model 10557 featured on this page:

| Model | Product Name                               |
|-------|--|
| 10577 | High Capacity Resistance<br>Brazing System |
