

## High Capacity Precision Timer Module

Model: 105HCPTM

### Description

American Beauty continues to push the envelope when it comes to resistance soldering. Long been viewed as a method of soldering strictly limited to industrial applications, American Beauty Tools has developed the High Capacity Precision Timer Modules that puts an end to that myth. With the ability to establish cycle time repeatability down to the hundredth of a second, resistance soldering is now a process engineers dream come true.

### Features and Benefits

Robust Timer Module easily handles the higher amperage current of the high capacity resistance soldering systems ensuring accurate time control for years to come.

Precision control to the 100th of a second ensures the tightest of process control.

Multi-function timer takes operator error completely out of the picture.
