

Model: 105TLRH

TINEL-LOCK RING HANDPIECE

American Beauty Tools has always manufactured the power unit and foot-switch in what is commonly referred to as system RH-396X. After years of listening to our customers attempt to source the hand-piece and complete system, we have taken action. We completely reverse engineered the Tinel-lock ring hand-piece portion of the the system. We guarantee that our system will perform to the exact same standards as the original RH-396X. Our **Model 105TLRH** includes only the **hand-piece**.

BS EN 60335-2-45:2002+A11:2023	Yes
WEEE Compliant	Yes
CE Certified	Yes
Warranty Policy	Details
User Manual	User Manual

FEATURES AND BENEFITS

Tinel-Lock adaptors are used to terminate copper, tin or silver plated cable braid to the rear of circular connectors using a shape memory metal ring that shrinks uniformly to secure the braid when heated.

Resistance systems ensure uniform heating throughout the Tinel-lock rings

The Tinel-Lock rings have a thermo-chromic paint dot that changes colour when the correct installation temperature has been reached.

REPLACEMENT PARTS

The following products can be used as replacements for Model 105TLRH featured on this page:

Model	Product Name
105TLRE	Tinel-Lock Ring Electrodes

END-OF-LIFE INSTRUCTIONS

In an effort to reduce waste and comply with WEEE directive, please do not dispose of product. All American Beauty Tools are serviceable and can be repaired and/or replaced. Please contact manufacturer to make arrangements.
