

Dri-Wick Desoldering Braid in Thumb-Wheel Dispenser

Model: 485-8C

Product Overview

Dri-Wick Desoldering Braid simplifies the desoldering of printed circuit board components, posts, pots, flags, through-hole connections, pads and traces, as well as many non-PC board applications. Careful desoldering of components/parts results in preventing damage to valuable products. Stop throwing money in the trash can...salvage and repair high-value parts and products with Dri-Wick Desoldering Braid.

To insure quality and reliable service, we start with only the finest oxygen-free and oil-free fine gauge wire. A no-clean formula to be used in conjunction with processes using RMA type no-clean fluxes. The easy to operate thumb-wheel vastly reduces opportunity for contamination.

The Dri-Wick Desoldering Braid in Thumb-Wheel dispenser comes in attractive point of sale packaging.

Features and Benefits

Oxide-free clean copper wound in advanced braid design around a static dissipative spool (8 ft per dispenser)

Thumb-wheel actuated for easy, contaminant free usability.

No Clean formula. (Flux remaining on board does not need to be cleaned)

Attractive P.O.S. packaging

Technical Specifications

ESD Safe	Yes
Braid Width	.093 in / 0.24 cm
Product Width	3.00 in / 7.62 cm
Product Height	.75 in / 1.91 cm
Package Weight	.05 lbs / 0.02 kg
Country of Origin	TW
RoHS Compliant	Yes
Safety Data Sheets	Download
Warranty Policy	Details
Product Lgth	5.50
