

## Model: 71T-LF

### THE LEAD-FREE DEEP END

Esico Triton electric solder pots are made in a wide range of models. Whatever the requirements, tinning, stripping, dip soldering etc. these solder pots will do the job efficiently. they are designed and engineered for todays continuous production requirements. The cast iron crucibles are designed for convenience, safety and high volume production.

As far as our pool analogies go, the Deep-end perfectly highlights the qualities of this pot. If you have long leads that you need to tin, you aren't going to find a better solder pot on the market for the money.

It takes approximately 8 bars of our CS-PBF4 to fill 'the Deep End' Solder pot.

#### FEATURES AND BENEFITS

**Just The Right Size ... This 9-1/2 Pound Capacity Solder Pot** was developed to meet the needs of higher volume production, larger solder dipping, heavy gauge wire tinning or similar applications.

This solder pot can be easily maintained by qualified service personnel. The modular design allows for quick replacement of expired heating elements or Thermostats.

1000 watts of thermostatically controlled power. The detachable cord-set can be easily replaced as needed. Includes removable dross tray and attached sand tray.

**Ceramic coated crucible** is chemically stable and highly resistant to the corrosive nature of soldering with higher tin contents, making this pot perfectly suitable for Lead-Free Soldering.
