

## Replacement Thermostat Model: 8055

### Product Overview

American Beauty Solder pots are constructed to endure the worst that you can throw at them. A full array of replacement items are available so that you can extend the life of your solder pot by performing routine maintenance versus purchasing a whole new unit.

American Beauty solder pots regulate the temperature of their solder bath through an efficient and effective bi-metal thermostat. Through simplicity of design, we have virtually eliminated the need to ever throw out a solder pot.
