

Model: 8055

REPLACEMENT THERMOSTAT

American Beauty Solder pots are constructed to endure the worst that you can throw at them. A full array of replacement items are available so that you can extend the life of your solder pot by performing routine maintenance versus purchasing a whole new unit. American Beauty solder pots regulate the temperature of their solder bath through an efficient and effective bi-metal thermostat. Through simplicity of design, we have virtually eliminated the need to ever throw out a solder pot. Follow this link to view our Solder Pot Wiring Schematic

FEATURES AND BENEFITS

Effective in controlling general temperature of American Beauty One Pound and Mid-Capacity solder pots.

Simple bi-metal design keeps pot running smoothly.
