REPLACEMENT 30 WATT COMPRESSION-WOUND HEATING ELEMENT

Our pride and joy, and the back-bone of every American Beauty industrial soldering iron is our compression wound heating elements. Its the first part every employee learns to make and its the primary reason for our success. All heating elements are wound in the United Sates, at our facility in the Metro Detroit area.

FEATURES AND BENEFITS

Ni-Chrome Compression Wound Heating

Elements are proven to be the most reliable heating element for maintaining soldering temperature in production environments.

Every spool is **cut from a single piece of steel** resulting in the superior durability and unsurpassed heat capacity of American Beauty soldering irons.

We offer a Repair Service if you're too busy to replace your soldering iron's old heating element.
