

Model: A29306

300 WATT, 5/8" HEAVY-DUTY SOLDERING IRON

Esico Triton heavy-duty soldering irons are ideal for heavy soldering jobs and production-line environments. Created by compression winding a special Ni-Chrome heating alloy onto a steel spool, all elements demonstrate an unsurpassed heat capacity and outstanding durability. Protective casings cut from a single block of steel are strengthened with multiple heat treatments and precision brazed for optimal strength and efficiency. *(Stand Included)*

TECHNICAL SPECIFICATIONS

| Wattage | 300 watts |

FEATURES AND BENEFITS

Ni-Chrome Compression Wound Heating Elements are proven to be the most reliable heating element for maintaining soldering temperature in production environments.

Our **Iron-Clad, Lead-Free Soldering Iron Tips** consistently outperform and outlast ordinary soldering iron tips many times over. **Plug-style tip design** provides for superior heat transfer and easy cleaning.

Hardwood handle provides superior thermal and electrical insulating properties and durability.

Modular construction allows for easy replacement of consumable parts allowing for tools to last for generations.

REPLACEMENT PARTS

The following products can be used as replacements for Model A29306 featured on this page:

| Model | Product Name |
|--------|--------------------------------------|
| 44C | Chisel Style Soldering Tip |
| AE2930 | 300 Watt Replacement Heating Element |

ACCESSORIES

The following products can be used as Accessories for Model A29306 featured on this page:

| Model | Product Name |
|-------|---------------------------------|
| 44D | Diamond Style Soldering Tip |
| 44S | Screwdriver Style Soldering Tip |
