

# Model: A3158X-250

## 250 WATT SOLDERING IRON W. CHISEL STYLE TIP

American Beauty heavy-duty irons are ideal for heavy soldering jobs and production-line environments. Created by compression winding a special Ni-Chrome heating alloy onto a steel spool, all elements demonstrate an unsurpassed heat capacity and outstanding durability. Protective casings cut from a single block of steel are strengthened with multiple heat treatments and precision brazed for optimal strength and efficiency. *(Stand Included)*

### TECHNICAL SPECIFICATIONS

|                                      |                             |
|--------------------------------------|-----------------------------|
| Stand included?                      | Yes                         |
| Available in a 220-240 VAC?          | Yes, available upon request |
| Country of Origin                    | US                          |
| Harmonization Code:                  | 8515.11.0000                |
| RoHS Compliant                       | Yes                         |
| IEC 60335-1, Edition 5.1, 2013-12    | Yes                         |
| IEC 60335-2-45, Edition 3.2, 2012-01 | Yes                         |
| WEEE Compliant                       | Yes                         |
| CE Certified                         | Yes                         |
| Understanding Tip Measurements       | Explanation                 |
| Warranty Policy                      | Details                     |
| User Manual                          | User Manual                 |

### FEATURES AND BENEFITS

**Ni-Chrome Compression Wound Heating Elements** are proven to be the most reliable heating element for maintaining soldering temperature in production environments.

**Paragon Iron-Clad Lead-Free Soldering Iron Tips** consistently outperform and outlast ordinary soldering iron tips many times over. **Plug-style tip design** provides for superior heat transfer and easy cleaning.

**Hardwood handle** provides superior thermal and electrical insulating properties and durability.

**Modular construction** allows for easy replacement of consumable parts allowing for tools to last for generations.

### REPLACEMENT PARTS

The following products can be used as replacements for Model A3158X-250 featured on this page:

| Model     | Product Name   |
|-----------|--|
| 44C       | Chisel Style Soldering Tip                             |
| 9275X-250 | Replacement 250 Watt Compression-Wound Heating Element |

### SIMILAR PRODUCTS

The following products are related (similar model but different specifications, etc.) to Model A3158X-250 featured on this page:

| Model     | Product Name                             |
|-----------|--|
| 3158X-250 | 250 Watt, 5/8" Heavy-Duty Soldering Iron |

### END-OF-LIFE INSTRUCTIONS

In an effort to reduce waste and comply with WEEE directive, please do not dispose of product. All American Beauty Tools are serviceable and can be repaired and/or replaced. Please contact manufacturer to make arrangements.
