

# Model: A61506

## 150 WATT, 3/8" MEDIUM-DUTY SOLDERING IRON

Esico Triton heavy-duty soldering irons are ideal for heavy soldering jobs and production-line environments. Created by compression winding a special Ni-Chrome heating alloy onto a steel spool, all elements demonstrate an unsurpassed heat capacity and outstanding durability. Protective casings cut from a single block of steel are strengthened with multiple heat treatments and precision brazed for optimal strength and efficiency. *(Stand Included)*

### TECHNICAL SPECIFICATIONS

Tip Diameter	.375 in
Wattage	150 watts
AMP Draw	< 1 AMP
Country of Origin	US
RoHS Compliant	Yes

### FEATURES AND BENEFITS

**Ni-Chrome Compression Wound Heating Elements** are proven to be the most reliable heating element for maintaining soldering temperature in production environments.

Our **Iron-Clad, Lead-Free Soldering Iron Tips** consistently outperform and outlast ordinary soldering iron tips many times over. **Plug-style tip design** provides for superior heat transfer and easy cleaning.

**Hardwood handle** provides superior thermal and electrical insulating properties and durability.

**Modular construction** allows for easy replacement of consumable parts allowing for tools to last for generations.

### REPLACEMENT PARTS

The following products can be used as replacements for Model A61506 featured on this page:

Model	Product Name
43LC-T	Long Tapered Chisel Style Soldering Tip
AE6150	150 Watt Replacement Heating Element

### SIMILAR PRODUCTS

The following products are related (similar model but different specifications, etc.) to Model A61506 featured on this page:

Model	Product Name
A61006	100 Watt, 3/8" Medium-Duty Soldering Iron
A61306	130 Watt, 3/8" Medium-Duty Soldering Iron
A62006	200 Watt, 3/8" Medium-Duty Soldering Iron
