

Model: MP-9H

REPLACEMENT HEATING ELEMENT FOR MINI POT

American Beauty Solder pots are constructed to endure the worst that you can throw at them. A full array of replacement items are available so that you can extend the life of your solder pot by performing routine maintenance versus purchasing a whole new unit. American Beauty incorporates two cartridge heaters of equal wattage into each solder pot. By inserting these cartridges directly into holes drilled into the bottom of the solder pot crucible, we ensure the quickest and most uniform solder bath heating available.

FEATURES AND BENEFITS

Cartridge style heater combines effective heating with superior longevity.

Heating cartridge lead length - 5.5 in / 14 cm

TECHNICAL SPECIFICATIONS
