

Model: R12062

1,800 WATT POWER UNIT

We have made several improvements to this product (Model R12062) since we purchased the Esico Triton product line in 2022. These changes include higher top end output (over 30% higher wattage on average), more circuitry protection and stronger cabinet. Oh...and its now Black vs Blue.

TECHNICAL SPECIFICATIONS

FEATURES AND BENEFITS

* No longer available with Thumb-Switch Activation

1,800 Watts (7.2 VAC) of Power with 3 unique settings provides intense power required to overcome difficult heat sinks. Heavy-Duty Steel case protects your investment for a lifetime.

Extensively tested for **CE & RoHS compliance**, ensuring the highest level of operator health & safety.

3/8" Stud & Wing nut allow for firm connection of heavy-duty handpieces with ring terminal connectors.
