

Model: R12188

REPLACEMENT ELECTRODES, WIRE TIPS

A resistance soldering system is only as good as your 'Point of Contact'. Esico Triton incorporates only the highest quality electrodes and elements into our hand pieces. Our Model R12188 offers a nice addition to the Press-to-Heat system for those looking for pinpoint spot soldering.

TECHNICAL SPECIFICATIONS

FEATURES AND BENEFITS

Stainless steel electrodes in adapters that easily fit into the R20595 Press-to-heat handpiece.
