

# Model: S3138-150

## 150 WATT, 3/8" HEAVY-DUTY SOLDERING IRON

American Beauty heavy-duty irons are ideal for heavy soldering jobs and production-line environments. Created by compression winding a special Ni-Chrome heating alloy onto a steel spool, all elements demonstrate an unsurpassed heat capacity and outstanding durability. Protective casings cut from a single block of steel are strengthened with multiple heat treatments and precision brazed for optimal strength and efficiency. *(Stand Included)*

### ACCESSORIES

The following products can be used as Accessories for Model S3138-150 featured on this page:

| Model    | Product Name  |
|----------|---|
| 43C      | Chisel Style Soldering Tip                              |
| 43D      | Diamond Style Soldering Tip                             |
| 43SBC    | Turned-down Blunt Chisel Style Soldering Tip            |
| 43TC     | Turned Down Chisel Style Soldering Tip                  |
| CS-ABKIT | Soldering Iron Maintenance Kit for 1/4" thru 9/8" Irons |
| V3700    | Voltage Controller for Heavy-Duty Irons & Pots          |

### FEATURES AND BENEFITS

**Ni-Chrome Compression Wound Heating Elements** are proven to be the most reliable heating element for maintaining soldering temperature in production environments.

**Paragon Iron-Clad Lead-Free Soldering Iron Tips** consistently outperform and outlast ordinary soldering iron tips many times over. **Plug-style tip design** provides for superior heat transfer and easy cleaning.

**Hardwood handle** provides superior thermal and electrical insulating properties and durability.

**Modular construction** allows for easy replacement of consumable parts allowing for tools to last for generations.

### APPLICATIONS

Users of this product have stated that they use it for several jobs which include but are not limited to:

1. Soldering Stainless Steel roofing products

## TECHNICAL SPECIFICATIONS

|                                      |                             |
|--------------------------------------|-----------------------------|
| Standard Tip Style                   | Diamond                     |
| Wattage                              | 150 watts                   |
| AMP Draw                             | < 2 Amp                     |
| Maximum Temperature                  | 1000 °F / 538°C             |
| Stand included?                      | Yes                         |
| Available in a 220-240 VAC?          | Yes, available upon request |
| Tip Diameter                         | .375 in                     |
| Product Length                       | 13 in / 33.02 cm            |

## SIMILAR PRODUCTS

The following products are related (similar model but different specifications, etc.) to Model S3138-150 featured on this page:

| Model     | Product Name                             |
|-----------|--|
| 3138-100  | 100 Watt, 3/8" Heavy-Duty Soldering Iron |
| 3138-130  | 130 Watt, 3/8" Heavy-Duty Soldering Iron |
| 3138-150  | 150 Watt, 3/8" Heavy-Duty Soldering Iron |
| 3138X-175 | 175 Watt, 3/8" Heavy-Duty Soldering Iron |

## REPLACEMENT PARTS

The following products can be used as replacements for Model S3138-150 featured on this page:

| Model    | Product Name   |
|----------|--|
| 3919     | Replacement Handle/Cord set for Heavy-Duty Irons       |
| 3933     | Replacement Item_Set Screws                            |
| 43S      | Screwdriver Style Soldering Tip                        |
| 9273-150 | Replacement 150 Watt Compression-Wound Heating Element |

## END-OF-LIFE INSTRUCTIONS

In an effort to reduce waste and comply with WEEE directive, please do not dispose of product. All American Beauty Tools are serviceable and can be repaired and/or replaced. Please contact manufacturer to make arrangements.
